

## University of Wisconsin – Stevens Point National Survey of Student Engagement, 2004

The University of Wisconsin – Stevens Point participated in the National Survey of Student Engagement (NSSE) in the spring of 2004. The survey was distributed via the Web to a random sample of 952 first-year students who initially enrolled at UWSP fall 2003 and 987 seniors. First-year students returned 385 surveys and seniors returned 441 for an overall response rate of 43%. The following tables compare the mean responses of UWSP students to public masters degree granting institutions. *[The single sample t-test is used to test for statistical significance. A ++ after a mean indicates that UWSP is significantly higher than public masters,  $p < .05$ . A -- indicates the UWSP mean is significantly lower.]* The tables are organized according to NSSE's "five areas of effective educational practice." Additional information is located at <http://www.iub.edu/~nsse>.
