RE: SAAC "Mini" Survey Results

Below are the results of our 3 week survey, assessing advisee preparedness for fall registration planning.

Levels of preparedness were subjectively assessed by using a 3 point scale:

- Very Prepared: Brought DPR, worksheet and/or list of courses and questions
- Somewhat Prepared: Brought DPR or worksheet or list of courses
- Unprepared: Had little or nothing prepared for the advising meeting

Of the 288 students advised the past 3 weeks, 29% were very prepared, 40% were somewhat prepared, and 31% were unprepared. While it appears that approximately 70% of our advisees come to their appointments more or less prepared, 30% are not. Where do we go from here? (Possible topic for discussion when we plan for 2009-10?)
