NOTE: All CNR majors require four introductory natural resource courses (*Natural Resources 150, 151, 250 and 251*), that may not be offered at other colleges. These four courses are prerequisites for the CNR Summer Camp requirement, which is normally taken after the sophomore year since Summer Camp is a prerequisite for most upper level courses. It is recommended that you transfer to UWSP after completing one year at MATC, especially if you are majoring in forestry, soils and water resources.
