**MEDIA ADVISORY: *Paper Science students and faculty celebrate engineering design project***

Who: Paper science students and faculty  
University of Wisconsin-Stevens Point

What: Join UWSP paper science students and faculty in the culmination of a semester-long engineering design project as they manufacture paper from recycled issues of the New York Times. The paper will be donated to the Stevens Point Area School District for use by art students in the elementary schools. Observe as Dr. Karyn Biasca's Paper Science 486 class conducts a live production run on the University's paper machine. Then join in a special ceremony and celebration as the class presents its new product to area school district representatives.

When: May 3, Tuesday

12:30 p.m.: Chancellor's Introduction  
12:45 p.m.: Project Overview: Karyn Biasca, faculty  
1 p.m.: Observe paper "run" and laboratory tour  
1:30 p.m.: Presentation to K-12 school representatives  
\*Social and reception to follow

Where: UWSP  
Science Building, Room D279
