Forestry Education Toolbox for Non-Formal Educators

April 7, 2010

12:30 pm – 5:00 pm

NAI Conference – Wintergreen Resort and Conference Center, Wisconsin Dells

Materials Fee - \$25

Why attend?

Your role as an outdoor educator allows you to help adults, families, and youth experience first-hand how forests are important to the health of our communities. LEAF's unique workshop will teach you how to easily infuse the LEAF forestry field and classroom lessons into your current programs. We've done all the leg work to ensure our lessons help you teach citizens about the complexity of our forests, how they are carefully managed, and how the decisions all of us make impact our forests for the future. LEAF's lessons are easy to understand, easy to implement, and we've been told they are FUN! LEAF instructors are committed to providing a quality, fast-paced workshop worth the time you will invest.

What you will get:

Your \$25 workshop fee provides you a copy of LEAF's Field Enhancement Lesson Guide and LEAF's Lesson Guide CD containing the K-12 classroom lessons. In addition, your facility will become one of LEAF's Field Experience Providers and will be listed on our website! That way, teachers and other programs can contact you directly about providing outdoor education experiences for students.

Register

Mail the attached registration form and the \$25 materials fee to LEAF by March 26th.
