

Demonstration Communities Program

EETAP Year 2

Mission:

The EETAP Demonstration Communities Program will provide insight into the importance of diversity, partnership, and initiatives that will move the nation towards environmental literacy one community at a time.

A program of the
Environmental Education
and Training Partnership.

Funding

The Demonstration Communities Program is funded by the Environmental Education and Training Partnership (EETAP). EETAP is the national training program of the U.S. Environmental Protection Agency's (EPA) Office of Environmental Education. The University of Wisconsin-Stevens Point administers EETAP through a cooperative agreement with the U.S. EPA.

Coordination

The National Environmental Environmental Advancement Project (NEEAP) manages the Demonstration Communities Program. NEEAP is a research and capacity building service center based in the College of Natural Resources at the University of Wisconsin-Stevens Point. NEEAP develops models, programs and tools to help EE leaders achieve comprehensive environmental education programs in states and communities.

Oklahoma

Sponsor

The National Environmental
Education Advancement Project

Community Vision

To reach culturally diverse audiences through the professional development and training of formal and non-formal educators from diverse backgrounds and increase their ability to participate in the Environmental Education arena.

To advance education and environmental literacy within diverse communities by:

- ◆ reaching and including a more diverse audience of critical thinkers who support EE as an integral facet of daily living,
- ◆ improving student learning,
- ◆ promoting quality EE,
- ◆ improving access to EE with technology,
- ◆ developing stronger leaders and organizations.
