I will use ideas or info from this session	4	4	4	3	4	4	23	<b>3.8</b>
								<b>22.2</b>

**Explain\***

To begin planning an effective eval and assessment program for the LC. Helps with clear purpose for meeting measurement  
 By utilizing pre, formative evaluation processes.  
 I am developing a watershed proposal and will use the eval techniques learned here. Also in my team project.  
 In teaching and also for our clinic  
 As the basis for planning

**Questions/comments/suggestions for improvement**

More time. Write objectives.  
 Gather participant expertise before hand so more time is spent on content
