

University of Wisconsin-Stevens Point (UWSP)
College of Natural Resources (CNR)
Introductory Courses

All CNR majors at UWSP must take four introductory natural resource courses.

NR150 – People, Resources, and the Biosphere

3 cr. Global resource and environmental problems from a historic, socioeconomic, and biological perspective.

Course web site: <http://www.uwsp.edu/natres/nres150/majors/>

NR151 – Ecological Basis for Natural Resource Management

3 cr. Basic principles of ecology and the application of those principles to management of natural resources.

Course web site: <http://www.uwsp.edu/wildlife/eanderso/nr151/>

NR250 – Introduction to Forestry, Fisheries, and Wildlife

4 cr. Integrated introduction to principles and practices of fisheries, forestry and wildlife management, including production of goods and services while maintaining ecosystem integrity and functions; emphasis on contemporary issues.

Course web site: <http://www.uwsp.edu/natres/nres250/>

NR251 – Introduction to Soil and Water Resources

4 cr. Integrated concepts of soil and water resources at the landscape level. Physical, chemical, and biological interactions relating to watershed processes and response to land use and management.

Course web site: <http://www.uwsp.edu/water/bbrowne/nr251/>
