

New Teams....

By now your design teams might have some technical questions. Anyone want to run a few questions by some of the experienced teams? Speak up.... there are NO dumb questions!

Bonduel High School is in the process of creating a new Electrathon team. At present time we are looking for any information on the electrical system. -What type of parts to get and where the best place to find these parts are. Any other info that someone else wants to provide would be greatly appreciated.

Thanks again,

Travis Schindel

Good luck to you in starting a team. I have found it to be a great experience for the kids.

My schools web site, that contains some of the information you are asking for, is  
<http://www.north.ecasd.k12.wi.us/Departments/TechEd/dsmith/HVT/webs/index.htm>

Additionally, I would be happy to electronically send you a sponsor packet from last year that describes the specifics of our vehicles.

Finally, there are many more school and professional sites available that will provide information on starting and maintaining a team.
