

A thought crossed my mind and I have ran it across a couple individuals who like the idea, so I am throwing it out there to get some more input. I am working with Mike Cattelino at Fox Valley to "maybe" see this happen this year at FVTC, (No Guarantees Yet).

If we were to host (1-3) 45 minute sessions after the car show on Friday Night at FVTC, ran by students or advisors on Supermileage and/or Electrathon teams/construction/fundraising/designing/ etc... How many of you would push you and your students to stick around and attend them? How many of you would have a topic to present on you or your students?
