REQUIRED ABSTRACT
Limit to space provided.

While school children have been the beneficiaries of much of recent EE statewide programming; awareness of the environmental literacy of Wisconsin citizens and the value of environmental education is important for State legislators and the Governor to recognize. It is also critical to achieving the WEEB's mission [providing leadership in the development of learning opportunities that empower Wisconsin citizens with the knowledge and skills needed to make wise environmental decisions and to take responsible actions in their personal lives, workplaces and communities].

This proposal will utilize existing resources (e.g., WEEB biennial reports to the legislature, statewide EE planning documents, EE websites, WEEB grant products and volunteers) to train volunteers (enhancing their citizen action skills) to inform legislators of how "EE Works in Wisconsin" and encourage legislators to become actively involved in EE efforts occurring within their districts. It will also give environmental educators an opportunity to showcase their profession and its accomplishments.
