simple to breeze forward, click
light switches equal
pleasure
turn on electricity, lust
emotion and passion
heartache
living any rush, inhale
substances always release
euphoria
abandoned our childish mind
capable of true joy
bliss
laughter which resonated freely
engulfed with an invisible
love

decide between Truth, or
remain attached
reason
addicted to our devices of logic
or worse yet
afraid
fearful to admit fault
bear a truth beyond
sight
only one distinct track to the summit
exclusive claims can
infuriate
decisions to be made now, here
life or death?

logic provides truth, yet still
debate remains, ultimately
