

Name _____

40 Points

7. Weathering Landforms

LEARNING OUTCOMES

By the end of this assignment you should be able to:

- Identify different types of physical and chemical weathering landforms and features;
- List the different types of weathering processes responsible for creating these landforms.

INSTRUCTIONS

Name the weathering landform(s) or feature(s) shown in each photo if that landform/feature has a specific name. If the landform/feature does not have a specific name, then list the weathering process(es) that created the landform/feature. Some photos show more than weathering landform; if so, name them all. 1 point each. [35]
