thank you for your support!
Welcome to UWSP’s Paper Science Foundation

The University of Wisconsin Stevens Point Paper Science Foundation was organized in 1974 by the Paper Science Department Staff, along with industrial and business leaders. The purpose of the Foundation was to form a tax-exempt, non-profit organization to promote and receive philanthropic gifts to support the Paper Science Program at UWSP. The management of the Foundation is governed by a Board of Directors composed of up to twenty-two (22) voting members, each elected for a three-year term. The Board, along with the Foundation staff, also works to enhance the image and presence of the Paper Science Program to incoming applicants, alumni, friends, corporations and the general public. Private gifts and donations raised by the Foundation traditionally support scholarship, academic programs, facility research, pilot equipment, and other areas that are not, or cannot be supported from state appropriations.

Foundation Objectives

Encourage students of high scholastic achievement and leadership potential to enroll in the Paper Science and Engineering program.

Provide financial assistance in the form of scholarships, grants and loans to Paper Science and Engineering majors.

Provide opportunity for alumni and interested leaders of the pulp, paper and allied industries to strengthen the Paper Science and Engineering educational program at UWSP.

Further communication between UWSP Paper Science and Engineering faculty and industry leaders in the development of curriculum and, through technical advice and financial funding, support the faculty in undertaking new fields of instruction.

Further technical service and applied research of importance to the industry through special grants and fellowships.
Jerry Lazarski,  
UWSP Paper Science Foundation  
Executive Director

“Thirty-five Years of Giving”

This October marked the 35th anniversary of the chartering of the UWSP Paper Science Foundation. While it was a much different world back in 1974, there are several constants here at the UWSP.

What continues is the high quality and dedicated drive of the students and faculty of the Paper Science & Engineering program. A second is the strong connection forged years ago between this campus and the Paper & Allied Industry of the region. And finally, there is the commitment to excellence Board members.

The results have helped formed the strongest and arguably the most well-rounded true Paper Engineering program in the country. The Foundation’s role in contributing to this recognized level of excellence is gratifying. Over the years, we have granted $1,000,000 in scholarships to young engineers to help ease the financial burden of college expenses. This is a source of pride to all who have contributed.

After the past year’s economic turmoil, we are beginning to see welcomed signs of recovery. This will be important to the Foundation as we expect to provide the needed scholarship money to our growing number of P & E majors. As we look forward to the exciting changes as a result of becoming both truly international and an accredited engineering program, we can also be reassured by the key positives in our history that remain durable.

From the business perspective, the UWSP Paper Science Foundation, Inc. continues to meet its obligations according to our bylaws. As we know, the market conditions were a disaster for most of 2008, with some recovery taking hold in our last quarter.

- Net assets of the Foundation decreased by (17%) due to market conditions.
- Corporate contributions were (37%) of goal; alumni giving were down (25%) due to a very poor economy. As companies have cut back, matching gifts programs have also been reduced substantially resulting in an (85%) decrease for us.
- The administrative fee from the endowment accounts will remain at 0% for 2009.
- Several committees recognized in the bylaws were activated and populated.
- Last year’s scholarship program was approved without change. Qualified students will continue to receive up to $2,400 per year.

With our increased enrollment, we expect to grant over $70,000 in scholarships this school year and we will double that amount over the next 5 years. What a great opportunity for our corporate supporters to ensure and sponsor the future leaders of their industry and for alumni to give back to the Foundation that so generously sustained them in their early years. The contribution forms can be found in both the front and back of this annual report.

Thank You,

Jerry Lazarski  
Executive Director  
UWSP Paper Science Foundation

A Turning Point

The outlook is beginning to brighten. The paper industry has begun a slow, but steady recovery. In most segments, demand for paper is expected to grow marginally over the next five years. Paper companies will continue to focus on value-added products, reuse of byproducts and consolidation of capacity. The pressures of globalization, environmental restrictions, tight capital budgets and reduced staffing will further challenge engineering, technical and research capabilities.

In spite of what appears on the surface of an industry in hardship, those considering a career in paper should consider the antidote that ‘adversity breeds opportunity.’ In the aftermath of reductions to technical staffing throughout the recession by all indications the industry has begun to grow not only in staff, but in the number of career paths necessary to meet the challenges facing the industry. It is only recently that the industry began using terms like “lean initiatives”, “green initiatives”, “renewable” and “sustainability”. These initiatives require that employees learn skill sets that complement conventional math, chemistry or engineering degrees. Companies have begun using six sigma/lean projects as the new training ground for prospective engineers. The green initiatives utilize multiple disciplines including carbon footprinting, recycling, bio-fuels and environmental science. The number of associated career paths has grown accordingly and at an increasing rate. The need for universities to offer classes relative to these initiatives has also increased.

UWSP Paper Science & Engineering has recognized and reacted to the demand. The majority of the 2010 UWSP PS&E graduates are employed as lean six sigma project engineers. There are numerous graduates working in the environmental science field and soon there’ll be graduates with bio-fuel focused careers as well. All this is the result of the PS&E program’s ability and flexibility to meet the educational needs of today. The PS&E Foundation is proud to support the financial needs of the best and brightest students as they are educated to lead the industry into the future. Please contribute and be a part of that success.
Outgoing President, Gary Weber conducts his last Board of Director’s Meeting.
Forty years ago the College of Natural Resources first opened its doors. Imagine what UWSP would be if a group of people hadn’t had the foresight to dream, to plan, and to build the College of Natural Resources. For anyone associated with UWSP in the last 40 years, it has to be impossible to image UWSP without the CNR. While the impact on the university has been great, it has also had an incredible impact on the State of Wisconsin and far beyond. The Paper Science & Engineering Program is now a part of that proud legacy.

What will we do today that will be remembered forty years from now? I offer that as a challenge to Paper Science and Engineering and to the UWSP Paper Science Foundation. It is also a question that I believe has an answer – WIST. The Wisconsin Institute for Sustainable Technology is a major effort by the university to develop interdisciplinary research, education, and laboratory services related to a broad range of sustainable technologies. That is an exciting possibility for all of us.

As we welcome Dr. Bernie Patterson as our Chancellor, the university is also asking a similar question, what is our future? It has been more than a decade since UWSP completed a campus-wide strategic plan. This plan will provide us with an opportunity to look at who we are and where we want to go as a university. A big part of who we are and where we want to go involves the greater Central Wisconsin region in particular, but stretches far beyond. UWSP has vital roles to play in economic development and the improvement of the quality of life in Central Wisconsin. This includes one of our key industries, the Paper Industry. We need to work with business, industry, cultural, and governmental organizations to make sure that the economy of and quality of life in Central Wisconsin are as robust as they can be. Our strategic plan will help us identify those roles and how we can move our university forward. The UWSP Paper Science Foundation has been a great partner in helping us see our role in the economy of Central Wisconsin and the global paper industry.

This is an exciting time at UWSP. Thank you for your contributions to UWSP and the Paper Science Foundation; they have helped us reach this exciting point in our history. We all look forward to continuing to work together to build the future for our students.

**Total Expenditures:** 139,444
This has been an excellent year for Paper Science and Engineering. Our ABET engineering accreditation, which was reported in last year’s annual report, has resulted in the recruitment of an outstanding class. Our freshman enrollment now stands at 24 students. This is a substantial increase from last year. In addition our total student number has increased from 66 to 77, a 17% increase. Furthermore, this year we experienced 92% retention of our freshmen.

Dr. Don Guay was promoted this year to associate professor and received tenure. As part of a 3-member research team at UWSP, Don received the 2009 Innovation Scholar Award from the WiSys Technology Foundation for developing a process to create liquid biofuels from wood-based materials.

Dr. Karyn Biasca, wrote a successful UW System grant to develop electronic portfolios for the assessment of student learning. Dr. Biasca also become one of the first Wisconsin Institute for Sustainable Technology (WIST) Scholars. Her WIST project encompasses the development of a continuing education course in Life Cycle Assessment.

With the official creation of WIST this year, Dr. Guay become the Director of Laboratory Services, and I became the WIST Director of Education. The new Executive Director of WIST, Dr. Paul Fowler, is now on board with his office across in the PS&E Department.

This past year was also a successful first year for our Trans Atlantic Paper Science Program. Five students from Finland and one from Germany spent the entire academic year with us, while three of our students spent the year in Finland and then Germany. All of our European exchange students worked with last year’s seniors on our senior-year engineering design projects. These projects were presented at the annual Academic Advisory Committee meeting, and one was presented during the “Posters in the Rotunda” in Madison last May. This year two students from the University of Applied Science at Munich have joined us while one of our juniors in now in Finland.

We have had the greatest number of personnel changes in our history this year. Dr. Amit Arora has joined our faculty as a new assistant professor. Mr. James Carr has joined us as both an adjunct instructor and the interim lab manager. Kelly Klaas is now pursuing her Ph.D. in engineering in UW-Madison, but will be doing her research at UWSP and working in the department part-time. Both Jim Servi and Craig French joined the department as instrument technicians. And finally, Danielle Mortag, our Program Associate for the last year, has left us and joined the UWSP Admissions Department as a student councilor. In her new position, she will be recruiting new students to UWSP and the Paper Science and Engineering program.

Continuing a record since 1973, 100% placement for 2010 graduates was once more achieved. Starting salaries matched the national starting salaries for chemical engineering, which according to the National Association of Colleges and Employers is the second highest paying major. All PS&E sophomores and juniors seeking co-op and summer jobs were also placed.

Lastly, the Paper Science and Engineering program is now beginning its 38th year. As mentioned in my report last year, we will be celebrating our 40th anniversary in 2013. But, who is counting.

Gerry Ring
Chair, Department of Paper Science & Engineering
Alumni reconnect at the First Annual Spring Fling reunion. Mark your calendar for the second reunion, April 22, 2011.

Golfers in the 6th Annual Paper Science Foundation Golf Outing warm up at the Sentry World driving range.

Having fun at Sentry World at the ‘Happy Gilmore’ putting Green.
...Overall, I’m just glad that I got to spend the last seven months gaining such valuable work experience.

...I’ve learned about papermaking itself, from stock to final product, but that’s something I could have learned from a book.....It was nice to see the process in action...

...Throughout my co-op I have gained a lot of knowledge about papermaking that will help me in future classes...

...I have found myself to be much more confident in my work and able to speak up when I have valid input for discussions...

...I also see how much the co-op has let me know what I am in for in the future. This experience has made me excited and confident about what I want my career to be like, as well as what kind of jobs I wouldn’t like to have.
Art Rankin accepting various 1st place awards for the 6th Annual PSF Golf Outting.
The paper listing lab was in desperate need of a new Gas Criminagraf. We decided to use the gift from RioTinto Minerals to purchase a brand new replacement unit. This allowed our students and technicians to carry out research with modern technology.

2010-2011 scholarship awards
We all know that a “First Responder” is the first on the scene to help out. Beginning with the class of 2010 graduates, the Paper Science Foundation begins our “First Responders” initiative. Each year, immediately after graduation, the first person from that class to walk into the Foundation Office with a check for the Paper Science Foundation will be listed as the “First Responder”.

The inaugural honor for 2010 goes to Andy Kaczmarek. “Thanks, Andy.”

**paper science past presidents**

Baehan, Jana  
Benz, Brian  
Bohman, Heath  
Bray, Evan  
Brzozowski, Benj.  
Burmania, Naomi  
Burmeister, Brian  
Clark, Scott  
Dahlke, Travis  
Duffek, Eric  
Dyer, Thomas  
Fischer, Joseph  
Frievalt, Nina  
Gregorius, Scott  
Hintz, Jason  
Hoff, Jason  
Hoffman, Ryan  
Krautkremer, Michael  
Leeser, Kirk  
Luedtke, Cary  
Luedtke, Todd  
McLaughlin, Robert  
Meuret, Janice  
Mischnick, Brian  
Nemec, Robert  
Nimmer, Leah  
Olsen, Jay  
Patridge, Daniel  
Russell, William  
Schilling, Michael  
Schneider, Christopher  
Sevenich, Joseph  
Stanislawski, Melissa

### CLASS OF 2000
Ashley, Jaime  
Bennwitz, Brian  
Bozile, Aimee  
Casamassa, Aaron  
Coenen, Andrea  
Congdom, Jason  
Craig, James  
Danz, Brian  
Drewiske, Chad  
Fabian, Frank  
Flees, Brandon  
Foti, Christopher  
Galoff, Tina  
Gardebrecht, Clint  
Groshek, Katherine  
Harris, Jason  
Hermus, Ryan  
Jacobson, Aaron  
Janousek, Lawrence  
Janousek, Mark  
Jones, Jason  
Kolton, Jesse  
Kontny, Kirk  
Kraat, Matthew  
Kurszewski, Jason  
Lazar, John  
Le Noble, Jesse  
Loritz, Jeff  
Malinsky, Christopher  
Nowaratzy, Daniel  
Prochaska-Foytik, Rebecca  
Schomaker, Jason  
Tomasiewicz, Ryan  
Wanta, Jeff

### CLASS OF 2001
Baumann, Sheri  
Brancich, Teri  
Eggebrecth, Eric  
Gregorius, Sara  
Hady, Steve  
Holze, Ryan  
Houghton, Brian  
Huelsbeck, Kevin  
Jacobsen, Frances  
Johnson, Kelly  
Krueger, Charles  
Kureck, Benjamin
CLASS OF 2000
Swanson, Elias
Tellock, Scott
Timm, Jonathan
Wegner, Joel
Winegarden, Blaine
Zblewski, Jason
Zurawski, Frederick

CLASS OF 2001
Ashley, Jaime
Bennwitz, Brian
Bozile, Aimee
