UWSP Paper Science Foundation:
The University of Wisconsin Stevens Point Paper Science Foundation was organized in 1974 by the Paper Science Department staff, along with industrial and business leaders. The purpose of the Foundation was to form a tax-exempt, non-profit organization to promote and receive philanthropic gifts to support the Paper Science Program at UWSP. The management of the Foundation is governed by a Board of Directors composed of up to twenty-two (22) voting members, each elected for a three-year term. The Board, along with the Foundation staff, also works to enhance the image and presence of the Paper Science Program to incoming applicants, alumni, friends, corporations, and the general public. Private gifts and donations raised by the Foundation traditionally support scholarships, academic programs, facility research, pilot equipment, and other areas that are not, or cannot be supported from state appropriations.

Foundation Objectives:
Encourage students of high scholastic achievement and leadership potential to enroll in the Paper Science and Engineering program.

Provide financial assistance in the form of scholarships, grants and loans to Paper Science and Engineering majors.

Provide opportunity for alumni and interested leaders of the pulp, paper and allied industries to strengthen the Paper Science and Engineering educational program at UWSP.

Further communication between UWSP Paper Science and Engineering faculty and industry leaders in the development of curriculum and, through technical advice and financial funding, support the faculty in undertaking new fields of instruction.

Further technical service and applied research of importance to the industry through special grants and fellowships.

Board of Director members stand in recognition at Annual Banquet.
Last year’s story line in the Paper Science Foundation’s annual report was the celebration of our 40 years of supporting engineering students at UWSP. Those attending the banquet, found it both enjoyable and interesting. The pre-recorded keynote address from our first department Chair, Dr. Mike Kocurek, was well done and very entertaining. (Dr. Kocurek will be here at UWSP, in person, next year for our banquet and awards dinner, September 22, 2016)

This year we returned to a renovated SentryWorld golf course and banquet center for our 41st year’s venue. It was beautiful. Attendance was great again at both events. We had a record number of golfers participate in our golf fundraiser and our supporters sponsored every hole on the course; see a few examples on page 16.

The Board of Directors approved over $75,000 in scholarships and awards for our engineering students for the 2015-2016 academic year. The last few years have seen a slow and steady increase in student numbers in Paper Science & Engineering. This will soon change. Our next challenge will be to raise the necessary funds to support the significant increase in engineering students enrolling at UWSP, due to the recently approved Chemical Engineering program. This will really boost our PS&E numbers. The entire Board will be working diligently to meet this ‘good news’ challenge head on. The world needs more engineers; the paper industry needs more great engineers. With your help, we can supply them.

Jerry Lazarski, Executive Director, UWSP Paper Science Foundation
UWSP Paper Science Class of 1974
Securing Our Future

With all due respect to colleagues with degrees in other fields of study, the world needs more engineers! Engineers are problem solvers ... and as the daily news indicates, the world has many problems to solve. More engineers, each trained to be an innovative rational thinker, means more solutions!

Stepping back from this global view, manufacturing across North America has a growing practical need for engineers. Increasing openings from retirements of Baby Boomers and the growth of manufacturing right here in Wisconsin emphasizes the need to support the education of engineers to secure our future.

In the 41st year of the Paper Science Foundation, we continue to support the development of engineering students at the University of Wisconsin-Stevens Point. With scholarships of up to $2400 per year to any student who puts in the effort and delivers, the path to a rewarding career is made a bit easier.

As you will read in the messages from Jerry Lazarski, Dean Christine Thomas and Dr. Karyn Biasca; exciting things are happening at the University of Wisconsin-Stevens Point. Take a moment to read of the developments, or better yet, stop by the College of Natural Resources and the Paper Science and Engineering offices, classrooms or labs.

As Foundation President, I encourage corporate sponsors, alumni and friends of PS&E program to continue to support the mission of the Paper Science Foundation. As our latest advertising piece suggests to talented high school students, “Let us help you become an engineer at UWSP”. Those of us who support the Foundation know what a key role these bright and well educated engineers play in our future success.

Russ Wanke, CEO, Expera Specialty Solutions
UWSP Paper Science Class of 1985
Funding dominated the University landscape this past year. This was the toughest biennial budget we have faced in my 35 years at UWSP. One of the toughest blows that we took was the elimination of the Wisconsin Institute for Sustainable Technology (WIST). This program has helped us stabilize the maintenance of our paper machine, produced patents, partnered with industry to create jobs, created extra opportunity for our engineering faculty to increase their income and helped us move our RiverPoint fine art paper into commercial production and marketing. We are hopeful that WIST (the brain child of Gerry Ring) will be able to continue its work on soft money. Only time will tell.

On the more positive side, enrollment continues into its seventh record year. With decreases in state-based funding for higher education continuing, enrollment is the currency on campus. The hard work of our faculty in taking on all of these extra students over the past several years caused the campus to soften the cut to CNR. While still ending the process with fewer faculty and staff, things could have been much worse. And in further good news, while the operator of our paper machine was on the state budget chopping block, the paper industry rallied to turn that around for us. We would not have cut that position, but had it not stayed, we would have lost an additional faculty member. We are grateful for the help that we received.

In an effort to leave you in the most positive place possible for this message on CNR, I am thrilled to tell you that we have secured our second $2 million gift in 18 months for endowing academic chairs. Both of these gifts came in wildlife. Our first was the Douglas R. Stephens Endowed Chair in Wildlife. The second gift, just consummated last week, is the Kennedy-Grohne Endowed Chair in Waterfowl and Wetlands Conservation. We would surely love to be able to announce one or two of these in Paper Science and Engineering in the next 18 months.

Thank you for your continuing support of our students and program. We could not be doing what we do without you.
Warm greetings from Stevens Point. The 2014-15 academic year was a whirlwind of activity for the Paper Science and Engineering Department. Here are the major events of the year.

The fall semester was exceptionally busy, with the 40th Anniversary Banquet for the Paper Science Foundation, our annual Paper Science and Engineering Career Fair, and a visit from ABET, the engineering accreditation body. The banquet was a wonderful event, complete with a video appearance by Mike Kocurek. The Career Fair brought more than twenty companies to campus for discussions and interviews with our students. We now encourage our first-year students to attend this event to give them an idea of what the future holds.

For the academic program, the ABET visit was the most important event of the year. Many of you are familiar with audits and credentialing organizations, such as those associated with ISO 9000 compliance. ABET performs a similar function for engineering academic programs. We hosted an evaluation team in October 2014. During their two days on campus, they visited with PS&E faculty, students and staff as well as numerous administrators across campus. The final statement from ABET showed no shortcomings for the Paper Science and Engineering program, a significant accomplishment in only our second formal review. We are clearly established as a quality engineering program, and are officially accredited through the 2020-21 academic year. The quality of our student body is consistently high, and the placement of our students in internships and entry-level positions remains close to 100%. The support of scholarships from the Paper Science Foundation is a significant factor in attracting these high ability students to UWSP.

We do have some challenges ahead. The recent budget cuts will result in a loss of a faculty position in our department. The state funding for the Wisconsin Institute for Sustainable Technology (WIST) was eliminated, and we are doing what we can to attract grant funding to help WIST continue to support our top-notch laboratory facilities.

A very positive challenge is out there for us as well. Our request to offer a chemical engineering major at UWSP was recently approved by the UW System Board of Regents. This program will be officially implemented in January 2016, and we are already seeing significant student interest in this new program. This is an extremely exciting development; one that we anticipate will attract even more high ability students to our programs.

Thank you so very much for your support of our students and our programs.

Dr. Karyn Biasca, PSCE Department Chair
University of Wisconsin-Stevens Point
Meetings, Meetings, Meetings . . .

Board of Director’s Meeting

Foundation President Russ Wanke opens the 41st annual meeting of the Board of Directors.

Vice President Joe Fierst (right) listens carefully as Executive Director Jerry Lazarski reviews Foundation policies.

Board members review the Nominating Committee recommendations.

The Paper Science Foundation Board approves the 2015-16 budget including $75,000 in student scholarships.

Annual Public Meeting

Russ Wanke (standing at right) delivers the President’s report at the annual meeting.
Board of Directors (2014-2015)

Gregg Aiken (2014–2016)

11th Annual Golf Outing & Fundraiser

Jodi Hermsen preparing materials for golfers registration.

Student volunteer Katherine Ebensperger checks in student golfer Nika Wanserski.

The P.S.F. THANKS our Golf Fundraiser Sponsors.

Just a few of our golf hole sponsors. THANK YOU!

See More Golf Pictures on Pages 20 & 21
Social Hour

Guests register for banquet.

Social hour networking.

. . . Refreshing beverages and a great hors d’oeuvre buffet.

All is ready in the Grand Hall at Sentry World.
Jerry Lazarski opening the 2015 banquet and introducing Board President, Russ Wanke, and Honored Guest and Keynote Speaker, Cathy Stepp, Secretary, Wisconsin Department of Natural Resources.

Once again a full house for the Paper Science Foundation’s Scholarship and Awards Banquet.
Back in the summer of 1990, before most of our current students were even born, someone was thinking of them. They thought it would be great to have an alumni challenge, to establish an Endowed Scholarship. Very soon after graduation, the “newly minted” 1990 graduates of PS&E slowly began contributing to the Paper Science Foundation, from which many of them had received financial support.

Sheryle Tepp and her classmates, persistently contributed those $25, $50 and $100 checks beginning in earnest in 1994 at their five year class reunion. Those checks kept coming in, and multiplied, and multiplied eventually hitting the $10,000 full maturity mark in 2015.

Congratulations to the Class of 1990.

With a little encouragement, the Class of 1984 will be next, soon to be followed by the Classes of ’85, ’87, and ’89.
The Paper Science Foundation President, Russ Wanke, CEO of Expera Specialty Solutions, welcomes attendees and presents his opening comments.

Special Lake States TAPPI Award

Dr. Gerry Ring accepting “Lake States TAPPI Service Award” from Jerry Lazarski. This was an unannounced award that Gerry was very surprised to receive.

Friends of the Foundation Award

Jerry Lazarski presents Packaging Corporation of America the “Friends of the Foundation Award”. Accepted by Adam Webster on behalf of Packaging Corporation of America.

Previous “Friends of the Foundation” recipients:

- 2004-05: Jerry Petrowski/Russ Decker
- 2005-06: Jeff Thompson/Tom Howett
- 2006-07: Larry Graham/Al Button/Art Rankin
- 2007-08: Tim Laatsch/Tom Danz
- 2008-09: Jim Sheibley - NewPage Corp.
- 2009-10: Dave Bieda - Rio Tinto
- 2010-11: Jim Beatty
- 2011-12: Sahil Tak - ST Paper
- 2012-13: David Lieble
- 2013-14: Gary Weber
- 2014-15: Packaging Corporation of America
Students’ Papermaker of the Year

The “Students’ Papermaker Award” was presented by Dustin Ziegelman, Paper Science & Engineer Senior, to Dale Nachman, the recently retired ‘paper makers expert’ on our laboratory pilot paper machine.

Consolidated Papers’ Scholar

Jerry Lazarski presents Consolidated Papers’ Scholar Award to recipient, Nathaniel Peterson.

Silver Level Giving

Katherine Ebensperger and Joe Brown, Student TAPPI Presidents, present “Silver Level Giving Alumni Recognition Awards to Scott Torisson and Russ Wanke.

Paper Science Foundation Scholarship Presentations

Scholarship awards were announced by Dr. Biasca and presented to our students by P.S.F. President, Russ Wanke. (See complete list on page 29)
2015 Seniors at Banquet

Seniors

2015 Fall Scholarships

-------------(SENIORS)--------------

Joseph Brown
Albany International Endowed Scholarship

Katherine Ebensperger
Ashland-Hercules Wayne Draper Endowed Scholarship
AstenJohnson Merit Award

Leslie Hillberg
Art Rankin-N.C. PIMA Endowed Scholarship
Pöyry (Appleton) LLC Merit Award

Ryan Pearce
BE & K TAPPI Paper Chase Endowed Scholarship
B.A.S.F. Corporation Merit Award

Jacob Reckamp
Bergomi (Joseph G.) Endowed Scholarship

Dustin Ziegelman
S T Paper Endowed Scholarship
Bercen, Inc Merit Award
Wausau Paper Scholar

Matthew Zimmerman
Class of 1980 Endowed Scholarship

-------------(PRE-JUNIORS)------------

Benjamin Demchick
North Central PIMA Endowed Scholarship
Class of 1985 Merit Award

Austen Dins
Kocurek Endowed Scholarship (Michael & Margaret)
Kadant Johnson Inc. Merit Award

Collin Koffanus
J.R. Fanselow Endowment (Englehard)
MeadWestVaco Merit Award

Evan Page
Betz Laboratories Endowed Scholarship,
GE Betz
Class of 1987 Merit Award

Adam Socha
Joseph Osfar Merit Award

-------------(SOPHOMORES)---------

Lea Bisch
Packaging Corporation of America Merit Award

Benjamin Domasky
Pöyry (Appleton) LLC Merit Award

Jack Duffy
Class of 1993 Endowed Scholarship
Sentry Insurance Foundation Merit Award

Katie Ebelt
Setterholm Endowed Scholarship
Sonoco Merit Award

Austin Feuerhammer
Paper Science Foundation Board Merit Award

Zack Goedeke
ST Paper Endowed Scholarship
Class of 1974 Merit Award

Andrew Kawleski
Class of 1990 Alumni Challenge Scholarship
Verso (NewPage) Merit Award

Joseph Molle
OMNOVA Solutions Endowed Scholarship
Class of 1999 Merit Award

Nathaniel Peterson
Lake States TAPPI Endowed Scholarship
Bercen, Inc Merit Award

Jonathon Waterman
Nalco Foundation Endowed Scholarship
Bercen, Inc Merit Award

-------------(JUNIORS)------------

Dylan Beyersdorf
Expera Specialty Solutions-LLC Endowed Scholarship
Voith Paper Merit Award
Wausau Paper Scholar

Tyler Englebert
Four Horsemen Endowed Scholarship
Badger Paper Mill (BPM) Merit Award

Justin Kreuser
Georgia Pacific Corporation Endowed Scholarship
Class of 1984 Merit Award

Levi Spaeth
International Paper (Champion) Endowed Scholarship

Alexander Stuplich
JJ Plank Merit Award

Wesley Vann
ST Paper Endowed Scholarship
Domtar Inc. Merit Award

David Veit
Great Northern Corporation Merit Award

Nika Wanserski
Lake States TAPPI Endowed Scholarship
Kimberly-Clark Merit Award

Stora Enso Papers Endowed Scholarship
Kadant Johnson Inc. Merit Award

Sean Walsh
Class of 1980 Endowed Scholarship
Great Northern Corporation Merit Award
We all know that a “First Responder” is the first on the scene to help out. This recognition was begun in 2010. The first graduate of the newest class that has made a personal contribution to the Paper Science Foundation is listed below. This tradition continues.

The honor for 2015 goes to Tyler Shimulunas.

Andy Kazmarek 2010
Katherine Mess 2011
Stephan Chastain 2012
Kurt Oleszko 2013
Lindsey Hoffman 2014
Tyler Shimulunas 2015

UWSP Paper Science Foundation:
The University of Wisconsin Stevens Point Paper Science Foundation was organized in 1974 by the Paper Science Department staff, along with industrial and business leaders. The purpose of the Foundation was to form a tax-exempt, non-profit organization to promote and receive philanthropic gifts to support the Paper Science Program at UWSP. The management of the Foundation is governed by a Board of Directors composed of up to twenty-two (22) voting members, each elected for a three-year term. The Board, along with the Foundation staff, also works to enhance the image and presence of the Paper Science Program to incoming applicants, alumni, friends, corporations, and the general public. Private gifts and donations raised by the Foundation traditionally support scholarships, academic programs, facility research, pilot equipment, and other areas that are not, or cannot be supported from state appropriations.

Foundation Objectives:
Encourage students of high scholastic achievement and leadership potential to enroll in the Paper Science and Engineering program.

Provide financial assistance in the form of scholarships, grants and loans to Paper Science and Engineering majors.

Provide opportunity for alumni and interested leaders of the pulp, paper and allied industries to strengthen the Paper Science and Engineering educational program at UWSP.

Further communication between UWSP Paper Science and Engineering faculty and industry leaders in the development of curriculum and, through technical advice and financial funding, support the faculty in undertaking new fields of instruction.

Further technical service and applied research of importance to the industry through special grants and fellowships.
