UWSP Paper Science Foundation:
The University of Wisconsin Stevens Point Paper Science Foundation was organized in 1974 by the Paper Science Department staff, along with industrial and business leaders. The purpose of the Foundation was to form a tax-exempt, non-profit organization to promote and receive philanthropic gifts to support the Paper Science Program at UWSP. The management of the Foundation is governed by a Board of Directors composed of up to twenty-two (22) voting members, each elected for a three-year term. The Board, along with the Foundation staff, also works to enhance the image and presence of the Paper Science Program to incoming applicants, alumni, friends, corporations, and the general public. Private gifts and donations raised by the Foundation traditionally support scholarships, academic programs, facility research, pilot equipment, and other areas that are not, or cannot be supported from state appropriations.

Foundation Objectives:
Encourage students of high scholastic achievement and leadership potential to enroll in the Paper Science and Engineering program.

Provide financial assistance in the form of scholarships, grants and loans to Paper Science and Engineering majors.

Provide opportunity for alumni and interested leaders of the pulp, paper and allied industries to strengthen the Paper Science and Engineering educational program at UWSP.

Further communication between UWSP Paper Science and Engineering faculty and industry leaders in the development of curriculum and, through technical advice and financial funding, support the faculty in undertaking new fields of instruction.

Further technical service and applied research of importance to the industry through special grants and fellowships.

Alumni from Dr. Mike Kocurek’s early classes at UWSP gather with him at the PSF annual awards banquet in September, 2016.
The Faces of Time

We’ve all said it at some point, ‘time really flies.’ I have had the great pleasure of serving as Executive Director of the UWSP Paper Science Foundation for 8 years now, and yes, time has flown by. It just doesn’t seem that long.

In that brief span, sixty-six young engineers have graduated from PS&E and started their own ‘timelines’ in the paper and allied industries across the state and our nation. As measured by the calendar, that first group of graduates are now seasoned professionals in their field. That, is just one aspect of the face of time.

This fall at our annual awards banquet, a very familiar face returned to Point for the first time in a few decades. “Doc” Michael Kocurek, first Department Chair, returned to reconnect with many of his former UWSP students. A few alumni from the very first graduating Paper Science class of 1973 returned just to see and visit with “Doc”.

Now that was some time ago. Mike remarked how many former students from the 70’s and early 80’s had not really changed “that much” …at least their faces were still very familiar to him. And “Doc” as you will see on the following pages, still looks quite good and nearly the same as he did when he strolled the hallways and classrooms of the old Science Building at UWSP.

Mike delivered a great, inspiring and challenging keynote address to the 200 banquet attendees. No podium could contain him and time was not an issue as he had a specific message to deliver to the engineering students in the room. We thank him for his many contributions to this university and the Paper Science Foundation. Above all, when it comes to paper, Dr. Kocurek is a tremendous educator, who has certainly stood the test of time.
Over the next several years, we will continue to see a loss of experience as leaders across our paper industry reach retirement age. This creates an even greater need for engineers both within our mills as well as within our supplier organizations that support the mills. The UW Stevens Point Paper Science Program continues to graduate exceptional engineers that have both a strong technical background as well as practical experience from project work on the pilot paper machine.

With the addition of a Chemical Engineering major in addition to our long standing Paper Science and Engineering major, the future for the UWSP Paper Science and Chemical Engineering Program is bright. We expect an increase in enrollment with the addition of a Chemical Engineering major and a majority of students will now graduate with a double major in both Paper Science and Engineering as well as Chemical Engineering.

Our challenge going forward as a Foundation is to continue the strong financial scholarship support for Paper Science and Engineering Majors and to raise new funds to support Chemical Engineering Majors in the future going forward. This will open up a new group of organizations for us to approach for donations to further increase our ability as a foundation to fund scholarships. I encourage you to consider designating a portion of your UWSP Paper Science Foundation donation this next year to the newly created Chemical Engineering Major General Endowment Fund as I plan to do. This general endowment fund within our existing Paper Science Foundation will fund scholarships to Chemical Engineering Majors with new donations going forward.

I want to personally thank you for your past support for the Paper Science Foundation and ask that you continue to support the mission of the Paper Science Foundation.
Greetings from Stevens Point. The 2015-16 academic year was another active year for the Paper Science and Engineering Department. Here are the major events of the year:

The 2015 fall semester included the Paper Science Foundation Scholarship and Awards Banquet and our annual Paper Science and Engineering Career Fair. The banquet featured Cathy Stepp, the Secretary of the Wisconsin Department of Natural Resources, as our keynote speaker. The event included recognition of all of our scholarship students as well as several awards for the supporters of the Foundation and our academic program. The Career Fair brought almost thirty companies to campus for discussions and interviews with our students. We continue to encourage our first-year students to attend this event to give them an idea of what the future holds.

Within the department, we worked on strategic planning and made adjustments to compensate for the loss of a faculty position to budget cuts. In the short term, we have changed a few of our courses to a two-year rotation; this is not possible for all of the engineering courses that we must offer. And as our student population grows, this approach will not be sustainable. The quality of our student body is consistently high, and we continue to achieve 100% placement of our students in internships and entry-level positions. The support of scholarships from the Paper Science Foundation is a significant factor in attracting these high ability students to UWSP. We must continue to provide the high quality academic experience that these students deserve.

Our new chemical engineering major enrolled its first students in January 2016. There are many exciting possibilities for this major, including the possibility for students to take electives in waste management courses to steer their chemical engineering major in an environmental direction. The excitement surrounding this program is palpable, and we look forward to the many ways our students make significant contributions to Wisconsin industry with this new major.

As always, thank you so very much for your support of our students and our programs. We would not have this level of success without you!

Dr. Karyn Biasca, PSCE Department Chair
University of Wisconsin-Stevens Point
Securing Our Future

With all due respect to colleagues with degrees in other fields of study, the world needs more engineers!

Engineers are problem solvers ... and as the daily news indicates, the world has many problems to solve. More engineers, each trained to be an innovative rational thinker, means more solutions!

From a very practical viewpoint, businesses across the United States have a growing need for engineers. Increasing openings from retirements of Baby Boomers and growth of manufacturing right here in Wisconsin emphasize the need to support the education of engineers to secure our future. I couldn’t be more pleased that the University of Wisconsin – Stevens Point has added a Chemical Engineering major that joins the existing Paper Science and Engineering major and the Biofuels Engineering minor. The new major officially launched in January 2016.

At the Paper Science Foundation, we continue to support the development of engineering students at the University of Wisconsin-Stevens Point. With scholarships of up to $2400 per year to any student who puts in the effort, the path to a rewarding career is made a bit easier.

As you will read in the messages from Executive Director Jerry Lazarski and Dr. Karyn Biasca, exciting things are happening at the University of Wisconsin – Stevens Point. Take a moment to read of the developments, or better yet, stop by the College of Natural Resources and the Paper Science and Engineering offices, classrooms or see a functional pilot paper machine in the lab.

As I wrap up my term as Foundation President and turn over the reins to the capable hands of Joe Fierst, I continue to encourage corporate sponsors, alumni and friends of PS&E program to support the mission of the Paper Science Foundation. As our latest advertising piece suggests to talented high school students, “Let us help you become an engineer”. Those of us who support the Foundation know what a key role these bright and well educated engineers will play in our future success.

Russ Wanke, CEO, Expera Specialty Solutions
UWSP Paper Science Class of 1985
The PSF Board of Directors at Work...

Board of Director’s Meeting

The PSF invited special guest Dr. Mike Kocurek, (seated, in center) first Department Chair, to join the Board’s group photo at the start of the meeting.

Out-going President Russ Wanke (2nd from left) receives a round of applause for his great leadership the past 2 years, as Joe Fierst, at his left takes, leadership of the PSF.

New PSF President Joe Fierst presents new Board member Mark Hassman with his Foundation lapel pin.

Annual Public Meeting

Fall meeting of the PSF for 2016 was held in the Community room at SentryWorld, prior to the 12th annual golf fund raiser.

While PSF investments suffered market losses, fortunately substantial contributions, including those from several new corporate donors, nearly offset the impact of the poor economy giving the PSF a sound year financially.
Board of Directors (2015-2016)

Ed Buehler (2015 - 2018)
VP - Business Development – Specialty, Verso Corp.

CEO, George Whiting Paper Co.

General Manager, Domtar-Nekoosa

Joe Fierst, Vice President (2014–2016)
Operations Manager, International Paper – Augusta

12th Annual Golf Outing & Fundraiser
The PSF thanks all of our golf fundraiser sponsors and our student volunteers.

The PSF thanks “Doc” Mike Kocurek for being such a good sport out on the driving range. What a great fund raiser!
Social Hour

Early guests register for the banquet.

Sponsored golf prizes await.

Social hour networking.

Hot hors d’oeuvre buffet sponsored by Expera Specialty Solutions.

Fifth PSF President Jim Crane renews acquaintance with Dr. Mike Kocurek.

Great opportunity for parents of PS&E students to meet UWSP faculty.
Executive Director Jerry Lazarski welcomes the 200 attendees to the 2016 Scholarship & Awards Banquet and then introduces his former professor and the evening keynote speaker, Dr. Mike Kocurek.

Dr. Kocurek’s use of high quality visuals keeps the audience engaged during his address.

Attending alumni stand at their tables.

Paper Science alumni are asked by Dr. Kocurek to stand and offer their personal advice to our students.
The Domtar Endowment was established earlier this year through the efforts of Matt Fischer, Kathy Collins, Craig Timm, and all PS&E supporters at Domtar Wisconsin operations. This fund will continue to grow through the support of Domtar to support scholarships for Paper Science & Engineering students.
Dr. Michael Kocurek
First Chair of the Paper Science Department 1970 to 1986

Dr. Kocurek was one of the founding members of the Paper Science Department and program at UW-Stevens Point. Professor Emeritus of Paper Science & Engineering at North Carolina State University, is one of the world’s most recognized educators in the pulp and paper industry. His focus is on Pulp & Paper Technology, Paper & Board Properties, and Workforce and Professional Development. He has 45 years of teaching experience, including undergraduate and graduate teaching, and courses for industry operators and professionals. In addition to teaching, Dr. Kocurek is the editor of eleven books and has authored/co-authored eleven video publications. His honors include TAPPI Fellow, TAPPI Distinguished Service Award, and induction into the Paper Industry International Hall of Fame.

Emily and David Holm Family Endowment

This new Endowment was created in 2015-2016 through the efforts of PS&E graduate, Tom Holm and his family. It was created to honor the memory of their mother and father. It will continue to support Paper Science and Engineering students in perpetuity.

Leah Renee Brueckner Memorial Endowment

Nearly 30 years ago, Matt Szymanski was the Sophomore Class Representative for PS&E students. After classmate Leah Brueckner died tragically in a traffic accident while jogging, Matt and his classmates lead an effort to establish a scholarship fund in Leah’s memory. With initial seed money of $1000 from Green Bay Packaging and the George Kress Foundation, the class of 1991 continued to donate. This fund has now fully matured.
Recently elected officers of the PSF are alumni Eli Swanson, Vice President and on right, Ed Buehler, Secretary/Treasurer. Eli is from the PS&E class of 1999 and Ed from the Class of 1984.

Endowment Plaques Presented

(L) Kathy Collins holds the Domtar Endowment plaque as Matt Fischer prepares to comment.

(C) Emily and David Holm Family endowment plaque is accepted by their son, Tom Holm.

(R) Leah Renee Brueckner Memorial endowment plaque is accepted by Matt Szymanski, Vice President-Mill Operations at Green Bay Packaging.

Friends of the Foundation Award

Jerry Lazarski presents the Friend of the Foundation Award for 2016 to former mentor, Dr. Michael Kocurek. “Doc” was also honored at a small private reception the day before the banquet where over $3000 was raised and added to the Michael & Margaret Kocurek Endowment which has been providing student scholarships for 25 years. (If you wish to add to this endowment also, please use the contribution form on inside cover.)

Previous “Friends of the Foundation” recipients:

- 2004-05 Jerry Petrowski/Russ Decker
- 2005-06 Jeff Thompson/Tom Howett
- 2006-07 Larry Graham/Al Button/Art Rankin
- 2007-08 Tim Laatsch/Tom Danz
- 2008-09 Jim Sheibley - NewPage Corp.
- 2009-10 Dave Bieda - Rio Tinto
- 2010-11 Jim Beatty
- 2011-12 Sahil Tak - ST Paper
- 2012-13 David Lieble
- 2013-14 Gary Weber
- 2014-15 Packaging Corporation of America
- 2015-16 Dr. Michael Kocurek
**Students’ Papermaker of the Year**

The “Students’ Papermaker Award” was presented by David Veit, Paper Science & Engineer Senior, to Mark Hassman of Kimberly-Clark Corp.

**Consolidated Papers’ Scholar**

PS&E student Nate Peterson is shown holding the Consolidated Scholarship surrounded by representatives of the Mead Witter Foundation.

**Silver Level Giving**

Nika Wanserski, President of the UWSP Student Chapter of TAPPI, presents the Silver Level Giving Award to ’82 Alumni Scott Torrison.

**Golf Award**

Past president of PSF Gary Weber hoists the infamous Traveling Trophy as Golf Co-Chair Kevin Sistler prepares to announce the 2016 winning team.

**PSF Scholarship Presentations**

The first of the $75,000 in PSF scholarships approved by the Board being presented by Joe Fierst to PS&E students with Dr. Karyn Biasca introducing each award recipient. (See complete list on page 29)
Seniors

UWSP Paper Science Foundation:
The University of Wisconsin Stevens Point Paper Science Foundation was organized in 1974 by the Paper Science Department staff, along with industrial and business leaders. The purpose of the Foundation was to form a tax-exempt, non-profit organization to promote and receive philanthropic gifts to support the Paper Science Program at UWSP. The management of the Foundation is governed by a Board of Directors composed of up to twenty-two (22) voting members, each elected for a three-year term. The Board, along with the Foundation staff, also works to enhance the image and presence of the Paper Science Program to incoming applicants, alumni, friends, corporations, and the general public. Private gifts and donations raised by the Foundation traditionally support scholarships, academic programs, facility research, pilot equipment, and other areas that are not, or cannot be supported from state appropriations.

Foundation Objectives:
Encourage students of high scholastic achievement and leadership potential to enroll in the Paper Science and Engineering program.

Provide financial assistance in the form of scholarships, grants and loans to Paper Science and Engineering majors.

Provide opportunity for alumni and interested leaders of the pulp, paper and allied industries to strengthen the Paper Science and Engineering educational program at UWSP.

Further communication between UWSP Paper Science and Engineering faculty and industry leaders in the development of curriculum and, through technical advice and financial funding, support the faculty in undertaking new fields of instruction.

Further technical service and applied research of importance to the industry through special grants and fellowships.

Annual Report
For Fiscal Year 2015-2016

We will be celebrating the anniversary of the pilot paper machine startup in 2017!
