**CORPORATE MEMBERSHIP CATEGORIES:**

- _____ Benefactor $10,000 or more
- _____ Patron $5,000 - $9,999
- _____ Underwriter $2,500 - $4,999
- _____ Sustaining Member $1,000 - $2,499
- _____ Active Member $500 - $999
- _____ Corporate Member Up to $500

Amount enclosed: $ ________________

Please consider increasing your corporate level of support!

**Fiscal year ends June 30**

Please make checks payable to:

**UWSP PAPER SCIENCE FOUNDATION INC.**

**Mail membership to:** Jerry Lazarski  
Executive Director  
UWSP Paper Science Foundation  
D-284 Science Building  
Stevens Point WI 54481

Thank you for your support!

to thank you for your support!
Welcome to UWSP’s Paper Science Foundation

The University of Wisconsin Stevens Point Paper Science Foundation was organized in 1974 by the Paper Science Department Staff, along with industrial and business leaders. The purpose of the Foundation was to form a tax-exempt, non-profit organization to promote and receive philanthropic gifts to support the Paper Science Program at UWSP. The management of the Foundation is governed by a Board of Directors composed of up to twenty-two (22) voting members, each elected for a three-year term. The Board, along with the Foundation staff, also works to enhance the image and presence of the Paper Science Program to incoming applicants, alumni, friends, corporations and the general public. Private gifts and donations raised by the Foundation traditionally support scholarship, academic programs, facility research, pilot equipment, and other areas that are not, or cannot be supported from state appropriations.

Foundation Objectives

Encourage students of high scholastic achievement and leadership potential to enroll in the Paper Science and Engineering program.

Provide financial assistance in the form of scholarships, grants and loans to Paper Science and Engineering majors.

Provide opportunity for alumni and interested leaders of the pulp, paper and allied industries to strengthen the Paper Science and Engineering educational program at UWSP.

Further communication between UWSP Paper Science and Engineering faculty and industry leaders in the development of curriculum and, through technical advice and financial funding, support the faculty in undertaking new fields of instruction.

Further technical service and applied research of importance to the industry through special grants and fellowships.
“Thirty-five Years of Giving”

This October marked the 35th anniversary of the chartering of the UWSP Paper Science Foundation. While it was a much different world back in 1974, there are several constants here at the UWSP.

What continues is the high quality and dedicated drive of the students and faculty of the Paper Science & Engineering program. A second is the strong connection forged years ago between this campus and the Paper & Allied Industry of the region. And finally, there is the commitment to excellence and leadership by those who have volunteered and served this Foundation as officers and Board members.

The results have helped formed the strongest and arguably the most well-rounded true Paper Engineering program in the country. The Foundation’s role in contributing to this recognized level of excellence is gratifying. Over the years, we have granted $1,000,000 in scholarships to young engineers to help ease the financial burden of college expenses. This is a source of pride to all who have contributed.

After the past year’s economic turmoil, we are beginning to see welcomed signs of recovery. This will be important to the Foundation as we expect to provide the needed scholarship money to our growing number of P S & E majors. As we look forward to the exciting changes as a result of becoming both truly international and an accredited engineering program, we can also be reassured by the key positives in our history that remain durable.

From the business perspective, the UWSP Paper Science Foundation, Inc. continues to meet its obligations according to our bylaws. As we know, the market conditions were a disaster for most of 2008, with some recovery taking hold in our last quarter.

- Net assets of the Foundation decreased by (17%) due to market conditions.
- Corporate contributions were (37%) of goal; alumni giving were down (25%) due to a very poor economy. As companies have cut back, matching gifts programs have also been reduced substantially resulting in an (85%) decrease for us.
- The administrative fee from the endowment accounts will remain at 0% for 2009.
- Several committees recognized in the bylaws were activated and populated.
- Last year’s scholarship program was approved without change. Qualified students will continue to receive up to $2,400 per year.

With our increased enrollment, we expect to grant over $70,000 in scholarships this school year and we will double that amount over the next 5 years. What a great opportunity for our corporate supporters to ensure and sponsor the future leaders of their industry and for alumni to give back to the Foundation that so generously sustained them in their early years. The contribution forms can be found in both the front and back of this annual report.

Thank You,

Jerry Lazarski
Executive Director
UWSP Paper Science Foundation

</table>
As we move forward with the 2009-2010 fiscal year of the Paper Science Foundation I am happy to report great progress on the initiatives outlined over the past few years.

Last year at our Annual Meeting we reported on the start of a number of important changes within the Paper Science and Engineering Department and within the College of Natural Resources. The year, we were able to report that all of these initiatives are well under way and by all accounts, very successful.

First, the program is now an ABET Accredited Engineering program. This accomplishment should be a big help to the program in attracting top high school students interested in an engineering career.

Second, we now have 6 students from Finland and Germany attending classes at UWSP and 3 UWSP students attending classes in Europe as part of the TransAtlantic Paper Science exchange program. As Gerry Ring discussed at the Annual Meeting, this has already had a positive impact in the classroom.

Third, the Wisconsin Institute for Sustainable Technology within the College of Natural Resources has become a reality and has received funding in the state budget which will allow additional faculty to be added to both the College and the PS&E department.

With all of these positive changes well underway, and the prospect of additional top students joining the program, it is an exciting time for the Foundation and for the Paper Industry that relies on UWSP students for their engineering needs.

As exciting as this news is however, we need to be aware that in order for the Foundation to continue to support the students and the Program at the scholarship levels we have established over the last few years, we will need commitment from both industry and alumni. With the economy in recession this past year, contributions to the Foundation were down significantly. Jerry Lazarski is working hard to identify other sources of contributions and to encourage current member companies and individuals to reinstate and increase their contributions as economy improves.

For past and present Foundation members, please reflect on the positive influence UWSP engineers have had in your organization. Alumni, please reflect on what the program and the university have meant to your career. Now more than ever, we need your help as an active supporter of the Paper Science and Engineering program and the Paper Science Foundation!

Thank You!
(Top) Foundation Officers, John Sommercorn, Kevin Sistler, and Gary Weber preparing for the Board of Director’s Meeting.

(Left) Gary Weber and Jerry Lazarski at Board of Director’s Meeting.

(Bottom from left to right) Jerry Lazarski, Steve Rau, Gerry Ring, Art Rankin, Dan Hietpas, and Christine Thomas reviewing financial results at the meeting.
This has been a very exciting year in the UWSP Paper Science and Engineering program. Last year I outlined goals that we hoped to achieve and we are proud to report major success against those aspirations.

Our faculty put a great deal of effort into preparing for a visit from ABET, the engineering accreditation body. We completed our self-study. The visiting accreditation review team came to campus in September. We were very pleased with the show of support of our industry partners who participated in the visit. The team was impressed with our program and curriculum and has offered some suggestions for change in the way we assess our progress and structure our personnel. We will be working on those suggestions over the next few months.

Last year, I reported that we would be trying to internationalize our curriculum through a EU/US grant application to create a joint program with universities in Europe and NC State University. Our International Programs coordinator, Bobbi Kubish recently landed a $447,000 grant to do just that. As I write this letter, Gerry Ring is in Munich and headed to Finland to coordinate with our partners in this effort.

Also, last year, I reported that we were working on an institute, the Wisconsin Institute for Sustainable Technology that would focus initially on biofuels. Faculty in Paper Science and Engineering and the Biology Department have partnered on major grants to support that effort. There has been some initial success...and more on the way. Stay tuned for that news in the next letter.

Last, but certainly not least...our enrollment for this year’s new class was full with 25 new students. The Paper Science Foundation supported every one of them with a generous scholarship. We are very proud of our progress...and we thank you for all that you have done to help us move in positive directions. Fasten your seat belts. The best is yet to come.

</table>
After four years of planning and a lot of hard work, the Paper Science and Engineering program was accredited this September by the ABET Engineering Accreditation Commission. Our accreditation is retroactive since 2007. The Paper Science and Engineering program had its roots in the Chemistry Department. Eight specialized courses in Pulp and Paper Technology totaling 20 credits were originally offered and taught by Dr. Raymond Sommers beginning in 1969. Because UWSP (then The Wisconsin State University at Stevens Point) was strategically located along the Wisconsin River, an important papermaking region in the State, Chancellor Lee Sherman Dreyfus began planning for a Paper Science and Engineering Department in 1970, and Dr. Michael J. Kocurek was hired to lead this effort.

In 1972, the question of where an engineering-oriented program should be located arose. Discussion with the College of Engineering at Madison, UW Central Administration (now UW System), and representatives from the Wisconsin Paper Industry led to the unanimous decision to keep the program at UWSP. Subsequently the Department of Paper Science was created with Dr. Kocurek as its chair in 1973.

Also in 1973, the new curriculum was reviewed by representatives from the entire U.S. Paper Industry. Thirty-four corporate executives from the paper industry responded with enthusiastic praise for its excellent design and its balance between academic and practical subjects. This year also saw the program’s first graduates.

By 1986, a new wing of the Science building was built to house the program, which included two labs, six offices and a classroom. During this year, Dr. Kocurek left the program to become the director of the Herty Foundation in Savannah, GA. and Dr. Larry Graham assumed the role of department chair.

During 1992, a paper machine was donated to the program by the S.D. Warren Company in Westbrook Maine. This generous gift was accepted and transported to the UWSP campus. Through a WiSTAR grant given to the program by Governor Tommy Thompson and matching funds from the paper industry led by George Mead of Consolidated Papers, the machine was refurbished and installed. In 1997 the machine was running and being integrated into the curriculum.

In 2003, upon the retirement of Dr. Graham, I became the chair. In 2007, to prepare for our ABET accreditation, the Department’s name was officially changed to Paper Science and Engineering. The academic program’s name was also changed to comply with ABET accreditation requirements after approval by the Faculty Senate. Although we changed our name, the curriculum that was put into place back in 1973 remains intact and has been serving our students and all our constituents well.

ABET engineering accreditation will allow our program to recruit high quality students looking for a smaller more personal engineering program. Students graduating from our program will now be able to transfer more easily to other ABET accredited engineering programs and graduate programs. It will also be easier for them to become licensed as a professional engineer. Finally, ABET accreditation will allow the program to continue to attract engineering faculty to ensure our future success.

In summary, it has been a historical year for the program. In 2013, we will be celebrating our fortieth year. Already we are starting to plan for this notable event.

Gerry Ring
Chair, Department of Paper Science & Engineering
paper machine in operation
(Top) Foundation President, Gary Weber, addresses the public at the Annual Meeting

(Middle) Dean Christine Thomas at Annual Meeting

(Bottom) Annual Meeting Participants
Trans-Atlantic Paper Science & Engineering (TAPS)

Partnering Universities:
- UW-Stevens Point Paper Science & Engineering Department
- North Carolina State University Wood and Paper Science Department
- University of Applied Science-München, Germany Department of Paper and Packaging
- TAMK-University of Applied Sciences, Tampere, Finland International Pulp and Paper Technology
- Jyvaskyla University of Applied Science, Finland Paper Machine Technology program

Academic Calendar (Approx.):
United States
- Fall semester: September-mid December;
- Spring semester: mid January-mid May;
- Internship: mid May-mid August

Germany
- Internship: January-mid March
- Summer term: mid March-July
- Winter term: October-mid February
- Internship: August-September

Finland
- Fall semester: September-mid December
- Spring semester: mid January-April
- Internship: May-August

Annual Meeting with TAPS Students standing
2009 Awards Program

Gary Weber presenting Thilmany LLC Endowment Award, Russ Wanke of Thilmany accepting award.

Don Guay and Kevin Sistler presenting golf awards.

Gregg Aiken receiving Neenah Paper, Inc. Endowment Award from Gary Weber.

Russ Wanke giving speech after accepting endowment award; Jerry Lazarski and Gary Weber standing next to Russ.

Gary Weber presenting Thilmany LLC Endowment Award, Russ Wanke of Thilmany accepting award.

Banquet guests standing for recognition; including George Mead and Interim Chancellor Mark Nook.
The forming board of the Pilot Paper Machine was worn out and in need of replacement. Mike Six, alumni of the P.S.& E. program—class of 2002, recognized an opportunity for his employer, Kadant AES. Through Mike’s efforts and the generosity of Kadant AES, a new forming board was manufactured, delivered, and installed in 2008. We are very grateful to Kadant AES and Mike for this enhancement to the paper machine.

Jay Kelly, President of student chapter of TAPPI presenting P&S&E Students’ Papermaker of the Year Award to Mike Six of Kadant.

Mike Six of Kadant happily giving his acceptance speech.

Mary Robus

CLASS OF 2009*
Benjamin Jensen
Peter Koeppel
Matthew Kolb
Casey Mcdaniel
William Puetz
Thomas Roltgen
Aaron Steive
Chad Thomack

*Accredited Engineering Graduates

35
The Mead-Witter Foundation Endowment has provided significant financial support to the ongoing maintenance and upgrading of the Pilot Paper Machine at UWSP over the years. This machine is our primary teaching tool for our engineers and is critical to the P.S.&E. program. This past year, endowment generated interest was used to replace several drives and pumps, as well as to improve the screening system. Our thanks to George Mead and the Mead-Witter Foundation.
